Applicants should fill out the online information form and upload the necessary documents (**the Applicant is obliged to upload a document showing the High School Graduation Grade, Equivalence certificate, copy of passport, photo, etc.**) The placement process will be carried out according to the declaration of the applicants and the original documents will be requested during the registration process, following the announcement of the placement results. **If there is a difference between the documents uploaded to the system during the online application and**

**10)** The evaluation of the results and the placement of the applicants are at our University's discretion. Our University has the initiative to decide not to fill the quotas. Meeting the minimum application criteria does not guarantee admission to the programs. The placement process will be carried out according to secondary education grade point average (GPA), age, and the high school graduation year of the applicants. If the score of both applicants is identical, placement will be made according to age and high school graduation year (the applicant who is younger and graduated more recently will be prioritized). During the additional placement, base points of the first placement won't be applied.

**11) a)** In compulsory situations, quotas can be reserved for the Balkan countries. The quotas to be allocated are determined by the University Senate and are included in the student admission announcement. If there is no application for the allocated country quotas or if the quota is not filled, the quotas can be transferred or removed by the decision of the Senate. To ensure a homogeneous distribution among different countries, a country quota will be applied for the countries with a high number of applications (other country quotas). The percentage of candidates who are nationals of the same country and have the right to register will not exceed 30% of the program quota.

**b)** 50% of the quotas will be allocated to the candidates with Balkan nationality (Albania, Bosnia and Herzegovina, Bulgaria, Croatia, Montenegro, Kosovo, Republic of Macedonia, Slovenia, Romania, Serbia, and Greece) as listed in Annex-1 and these quotas will not be allocated to the candidates from other countries. However, candidates with Balkan can be placed in the vacant quotas from other countries. There will be a re-application and additional placement process for the quotas remaining vacant after the first placement.

**12)** The placement process will be conducted after the evaluation of the applications through the Student Information System, in the presence of the International Student Evaluation, Admission, and Placement Commission.

## **PRINCIPLES OF REGISTRATION:**

1) Placement of the applicants will be made according to their declarations stated in the application forms. The originals of the required documents should be submitted during the registration. Those who have deficiencies or distortions in their documents cannot register. If it is noticed that an applicant is registered with a false statement or fake document, or an applicant who placed in a program does not register and still appeared as applied or placed, their registration and all acquired rights will be canceled. Legal action may be taken against them.

2) If an applicant applied and placed to a program for the 2022/2023 academic year and if he/she again applies to a program and is placed, during the additional application/placement period for the 2022/2023 academic year, their rights stemming from the second application/placement will be canceled.
