

## CONDITIONS OF ADMISSION OF FOREIGN STUDENTS AT THE UNIVERSITY OF BILECİK ŞEYH EDEBALI

### Application

Explanations regarding the applications are announced on the website of our University <http://www.bilecik.edu.tr> in June every year.

Applications for admission of foreign students must be submitted to the coordination of the foreign students unit <http://w3.bilecik.edu.tr/bilyos/> between the dates determined in July. No applications will be accepted except those made via the internet address.

Candidates with minimum base scores from the exams above can apply for student quotas from abroad. Apart from these exams, exams approved by our University from higher education institutions in Turkey are also accepted. In case of applying with exams from countries and exams not explained here, the scores determined by the Foreign Student Admission Commission will be valid. Candidates who have received gold, silver and bronze medals from international science Olympiads recognised and participated in by TUBITAK (The Scientific And Technological Research Council Of Türkiye) are not required to have a base score. Candidates who get the minimum score required to make a choice in the score type of the relevant programme from the university entrance exams conducted by the Measurement, Selection and Placement Center can also apply to the programmes.

### Evaluation of Applications

Ensuring the coordination between the units, evaluating the applications for the announced quotas, conducting the placement procedures and resolving the objections to be made are carried out by the International Student Admission Commission and the placement process is finalised after the approval of the University Administrative Board. Meeting the application requirements is not sufficient for placement.

The applications of candidates who do not meet the application requirements are not evaluated. Candidates who do not register on the announced dates lose their registration rights. Instead of the candidates who do not register, registration is made among the reserve candidates on the specified dates. During the placement;

Firstly, candidates with BIL-YÖS (Foreign Students Selection Examination) score are placed. If the quotas are not filled, applicants with other exams are placed according to the point ranking and preferred programmes. If the quotas are not filled again, applicants with high school diploma are placed according to the point ranking and preferred programmes.

Evaluation is made on the basis of university and in general according to score and preference order.

The converted scores are ranked in descending order and the candidates are placed as full or alternate members according to the candidates' preferences and as long as they do not exceed the number of quotas determined by the department concerned.

As a result of the evaluation, the other preferences of the candidate who is placed in one of the preferences as the main or substitute are not taken into consideration.

In case of equality of the points taken as basis for placement, the younger candidate is preferred.
